

## 2020 VISION – KIDERMINSTER ART SOCIETY

A list of subjects has been drawn up for each week of the year as a prompt for members to create a piece of artwork for that week. The list is based loosely on the Theme of the Month. Members could collate their art in a folder, art book or sketchbook. The exercise is intended to be a flexible framework to encourage exploration of different subject matter, media or styles. Members are welcome to put their own 'take' on it and I am sure we will end up with an exciting body of work by the end of the year. Members are encouraged to bring in any work done through the month to appraisal evenings to share their ideas and art.
